

WANTS TEAS OF BELL WORM

Says "Halfway" Measure Will Mean Quarantine on State.

AUSTIN, Tex., May 27.—Warning that Texas will face a country-wide quarantine if the state attempts "half-way" measures in dealing with the pink boll worm pest was served on the legislature today by Secretary of Agriculture, in a letter read at a special session called to ratify a recent agreement between the national government and Texas and Louisiana representatives.

The immediate needs, Mr. Meredith said in his letter to Gov. Hobby, expressing regret that he could not address the session personally, was declaration of "noncooperation" with the infested area of Texas and the plowing up of fields already planted in such areas.

"I sincerely hope," the secretary added, "that the legislature will act promptly as possible make such amendments to the pink boll worm act of 1919 as may be necessary to carry out the full program of extermination, including provision for the reasonable reimbursement by the state of the planters concerned for their loss."

At another point the secretary said: "The question of the cotton industry is not to be lost to Texas and this country. Failure to profit by that lesson would surely bring upon the cotton industry of this nation a calamity which could not be measured."

Stating the department's position and that of other cotton growing states, Mr. Meredith said:

"If Texas should fall in this present emergency to carry out the program of extermination and adopt in lieu thereof some half-way course which would practically amount to giving up the fight and leaving ample room for spread of the insect in Texas and to other states, the department of agriculture, realizing its obligations to the other cotton growing states, feels that it would be remiss in its duty if it failed to do everything that is possible within the scope of its power and authority, to prevent the spread of the pest from Texas."

"It should be borne in mind also that the quarantine that already has been taken by several other states, the modification or abandonment of which I understand is contingent upon action taken by Texas to carry out the program outlined, would result in effect in a country-wide quarantine of Texas, entirely independent of any federal action. It was determined upon by an interstate convention, without consultation with this department, and was based on the responsibility which the officials of these states feel for protection of their own cotton industry."

"Ouch! My Rheumatism!"

Why Suffer When Relief Is Easily Found?

Mr. C. E. Dozier, living at 2032 Nelson avenue, Memphis, Tenn., says about Kirk's Rheumatic Remedy: "My mother was a sufferer from rheumatism in one arm. I persuaded her to try a bottle of Kirk's Rheumatic Remedy, and after taking one bottle she was entirely relieved and has been troubled no more. I take great pleasure in recommending Kirk's Rheumatic Remedy to anyone afflicted with rheumatism."

One bottle of this fine medicine usually relieves the most stubborn case of long standing. But rheumatism is not always easy to overcome, therefore it is best to keep on taking Kirk's Rheumatic Remedy a little while longer in order to drive the poison out of the system. Buy a bottle and give it a fair trial. Follow directions on bottle, then take great pleasure in telling the dealer and get your dollar back. That is certainly a fair guarantee.

This same guarantee applies to Kirk's Vigorone, a fine tonic; Kirk's Cough Syrup, Kirk's Chili Tonic, Kirk's Sarsaparilla, Blood Purifier and Kirk's Liniment, made by Kirk Chemical Co., Memphis, Tenn. Sold by druggists everywhere.
